**USED MODEL 6000  
AUTOMATIC STENCIL  
CLEANER**

Smart Sonic Model 6000 Stencil Cleaner. Ultrasonic efficiency and ability to clean solder paste, adhesives and flux residue in one machine. The user maintains hands-free loading and unloading, valuable floor space is minimized and the need for expensive cabinet exhaust is eliminated. The Model 6000 uses a reliable motor-driven transfer system and touch pad control panel for multiple cycle programs and adjustable loading and unloading height. This model also uses less chemistry and generates less wastewater with its compact tank design that is capable of cleaning up to a 29" (750mm) stencil. It includes 360° user safety via the 2' Plexiglas side panels and safety light curtains to protect the user from all moving components. Compatible with all ultrasonic cleaning chemistries.

Serial Number SSC-1013-1756 - Includes the following options:

- Autofill
- Chemical Injection
- Power Drain
- Heater Control Package
- Light Curtain
- Safety Water Shutdown
- 230v; 3 phase, 15 amps

**Price – AS IS: \$47,098**
